EXPERIENCE

Senior Software Engineer

Blenheim Chalcot IT Services

June 2021 - Present

Mumbai, India

- Design and implementation of microservices-based .NET Core REST APIs, improving response time by 10%.
- Enhanced front-end performance using Vue.js, driving user satisfaction and engagement.
- Participated in the full SDLC from conception to deployment.
- Developed and improved financial products and services, ensuring robust, scalable solutions.
- Employed microservices architecture to develop RESTful services using .NET Core and JSON for API communication and data interchange.
- Collaborated directly with UK-based clients, aligning development with strategic goals and building stronger partnerships.

Senior Software Engineer

GGK Technologies

February 2019 - March 2021

Hyderabad, India

- Managed a team to develop a automation tool (RAFT Accelerator tool) using .NET Core and Angular 9, reducing manual testing by 20%.
- Integrated Git and Azure CI/CD pipelines, streamlining development and deployment.
- Performed code reviews and testing, ensuring high-quality and maintainable code.
- Designed and developed applications using .NET MVC, significantly improving application performance.
- Implemented API communication using JSON for data interchange.
- Collaborated closely with cross-functional teams for design and implementation discussions to develop scalable solutions.
- Contributed to Agile processes by leading stand-up meetings and facilitating sprint planning.

Software Engineer

Tech Mahindra

August 2015 - February 2019

Hyderabad, India

- Transitioned from support to development, creating scalable .NET MVC applications.
- Mentored junior developers to promote proactive issue resolution.
- Enhanced data reporting by integrating SSRS reports and optimizing SQL procedures.
- Reduced issue occurrence by 20% through insights from support, improving system reliability.
- Shifted focus from production support to long-term solution development, minimizing downtime and enhancing system stability.

SKILLS & TOOLS

C#, .NET Core, .NET MVC, ASP.NET, VueJs, Angular9, jQuery, MySQL, MSSQL, VS Code, GIT, JIRA, AWS, Azure

EDUCATION

Bachelor of Computer Science, Kakatiya University

2012 - 2015

AWARDS AND RECOGNITION

- Awarded “Star of the Month” for designing and developing the RAFT Accelerator tool.
- Commended by Roche India for creating automated reports, showcasing expertise in automation and reporting solutions.
