INDEPENDENT ACCOUNTANT'S REPORT

To the Board of Directors of the Depository Trust Company
New York, NY

We have examined management's assertion of the Depository Trust Company ("DTC"), (a wholly owned subsidiary of The Depository Trust & Clearing Corporation), included in the accompanying Appendix A, *"Management's Assertion regarding DTC's internal control over safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions"*, ("Management's Assertion") that DTC maintained effective internal control over safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions based on the requirements in Section IV-G of Release No. 16900, under the Securities Exchange Act of 1934, for the twelve-month period ended June 30, 2024. Management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Because of inherent limitations in any internal control, misstatements due to errors or fraud may occur and not be detected. Also, projections of any evaluation of internal control over to DTC's safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

We have been informed that in applying the requirements of Section IV-G of Release No. 16900, under the Securities Exchange Act of 1934, DTC has put into place certain criteria relating to internal control over safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions which are included in the Rules, By-laws, Service Guides and Operational Arrangements and available on DTCC's website for DTC participants, regulators and other securities industry affiliates.

In our opinion, management's assertion that DTC maintained effective internal control over the safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions based on the requirements in Section IV-G of Release No. 16900 under the Securities Exchange Act of 1934, for the twelve-month period ended June 30, 2024, is fairly stated, in all material respects.

This report is intended solely for the information and use of the Board of Directors, management, its regulators, and for the information of its Participants, and is not intended to be, and will not be, used by anyone other than those specified parties.

Appendix A

Management's Assertion regarding DTC's internal control over safeguarding of securities and funds, and prompt and accurate clearance and settlement of securities transactions

For the twelve-month period ended June 30, 2024 the Depository Trust Company (the "Company" or "DTC"), a wholly owned subsidiary of The Depository Trust & Clearing Corporation, maintained effective internal control over safeguarding of securities and funds and prompt and accurate clearance and settlement of securities transactions, based on the requirements in Section IV-G of Release No. 16900 under the Securities Exchange Act of 1934.

We, as members of management of the Company, are responsible for establishing and maintaining internal control over the processing of transactions related to securities and funds and prompt and accurate clearance and settlement of securities transactions. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. Some of the objectives of such internal controls are to provide management with reasonable, but not absolute, assurance (i) that securities and funds for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, (ii) that securities transactions and related funds are processed in accordance with instructions from participants and are properly recorded and reflected in daily and monthly statements to participants and (iii) that the Company properly records, allocates and reflects in daily statements to participants the dividends and interest related to securities under its control. Participants are responsible for promptly reviewing the daily securities activity and dollar settlement statements and the monthly securities statements prepared by the Company, and for promptly notifying the Company of questions, exceptions or errors.

We have evaluated DTC's internal controls related to safeguarding of securities and funds and prompt and accurate clearance and settlement of securities transactions, and based on this assessment, we assert that:

- DTC has maintained effective internal control, related to safeguarding of securities and funds and prompt and accurate clearance and settlement of securities transactions, based on the requirements in Section IV-G of Release No. 16900 under the Securities Exchange Act of 1934, for the twelve-month period ended June 30, 2024.
